Dear Mr. Carver:

Just a note to thank you once again for your very informative briefing on Indochina. Walt alerted me to the difficulty of "finding" let alone "fixing" you. I most appreciate your generous departure from a very busy schedule.

I have been assigned American Diplomatic History next semester. You can well imagine how valuable your article and conference will be in this area.

Father Forster, History Chairman, joins me in reminding you that you have a standing invitation to visit Providence College whenever you may be up this way.

Most appreciatively yours,

Richard M. Deasy
